Mid-West Fastener Association

Where Education is a Priority

Mid-West Fastener Association
(Incorporated 1946)

The Mid-West Fastener Association is the oldest fastener association in the United States. This year the MWFA celebrates its 64th anniversary. During the past 64 years the association has expanded and evolved from a small local group, to a large association with members from coast to coast.

The Midwest market has the largest concentration of fastener related firms in the world. MWFA activities have drawn members, as well as the fastener industry at large, to our annual Fastener Expo, Golf Outing, and other programs.

The MFWA has given out more than 350 scholarships, to members, spouses and their children, totaling in excess of \$400,000. As a result of national interest, the MWFA has adjusted its programs to reflect its commitment to growth and service to the whole fastener industry. General meetings cover specific subjects and problems facing the industry as well as universal subjects of general interest to all companies. Dinner meetings are held in several major Midwest cities.

As a leader in the fastener industry, the MWFA continues to focus on its education programs as a priority. You will find unsurpassed fastener industry training through the industry itself where decades of experience offer the most extensive knowledge. MWFA members are afforded many opportunities for information and education, which have established the success of the MWFA.

The MWFA association is Directed by a Board of Directors comprised of 12 Leading Industry specialists. Visit their website at www.mwfa.net to learn more about this high profile industry group.

Mission Statement **(adopted 01-09-2007)**

The MWFA's purpose is to serve and promote the fastener industry and the ever changing needs of its' membership. Specifically the MWFA is dedicated to representing all segments of the industry; manufacturers, distributors, importers and suppliers to the industry.

Mid-West Fastener Association Purpose and Membership Guidelines

The MWFA's purpose is to serve and promote the fastener industry and the ever changing needs of its membership. Specifically the MWFA is dedicated to representing all segments of the industry; manufacturers, distributors, importers and suppliers to the industry.

Purpose:

Membership service, promotion and representation are provided in a number of ways that give each member (large or small) many opportunities to benefit by belonging. MWFA holds general and special meetings, conducts educational seminars, sponsors an industrial trade show in conjunction with weekend activities, hosts the largest golf event in the industry, have other social events, publish regular newsletters and information sheets, conduct surveys to provide members with market situations, hold monthly board meetings, award college scholarships to children of member companies, and continually search for new ideas, programs and ways to grow and expand.

These are accomplished by member participation and interest in making the MWFA a successful organization. We are the oldest fastener organization in the U.S., and are looked at and to for the leadership role we and our member companies play in the fastener industry.

All MWFA events are offered to members at a lower cost and on a priority basis.

Membership Criteria:

To become a full member of the MWFA, a prospective company must meet a few simple, but important steps;

- Its place of business must be in the state of Illinois or an adjoining state
- The business must have been in existence for three years
- The company must carry a reasonable permanent inventory
- Three full-time persons, excluding the owner, must be employed
- The company should agree to abide by the Association's by-laws and participate in Association activities

Companies not meeting the above criteria may apply for an Associate membership.

***Share the application on the next page,
they'll be glad you did!***
