

OPEN POSITION:

Since 1995, Locknut Technology has manufactured and processed high-quality, all-metal, prevailing-torque locknuts for industrial applications. Our specialties include production of FLEXTOP[®], high performance locknuts, automation locknuts, flange locknuts and weld nuts. All of our locknuts incorporate a precision thread deflection process using proprietary manufacturing equipment. Locknut Technology is an ISO 9001: 2015 registered firm and every lot is fully traceable with Locknut Technology's registered product trademark.

Looking to make a big impact in a small, tight-knit team? This role offers a unique opportunity for a skilled **Tool Room Machinist or Tool & Die Maker** to take full ownership of the tooling function across our production department. In our collaborative and agile environment, your expertise won't just be noticed - it'll drive real results and be highly valued. The Tool Room Machinist/Tool & Die Maker will maintain and build our customer production tooling for in-house use as needed, extend technical support into operations. Light machining duties allow for regular involvement in Production Department technical support.

Duties and responsibilities:

- Maintain production tooling i.e., punches, part indexing toolsets, fixtures, actuators
- Support production dept. operation with machine troubleshooting and repair
- Validate proper application and operation of tooling in production machines
- Test/inspect product quality as part of any tooling implementation or modification
- Build new tools and machine components to specification
- Maintain tool room records and supplies, source outside vendors as needed

Required qualification:

- At least 3 years of prior experience machining on Manual Surface Grinders, Manual Milling Machines (Bridgeport) and Manual Lathes
- Minimum 5 years' experience building and repairing tools
- Must have own machinist tools

Desired qualifications:

- Strong mechanical aptitude
- Strong attention to detail and quality
- Initiative-taking, and able to work independently
- Motivated toward Continuous Improvement in Quality and Productivity

Pay

- Up to \$45 an hour based on experience and skills
